Rome, March 4...

The claim that the whole of the Ethiopian northern front has been destroyed, is contained in a communique issued to-day by the Italian High Command.

It asserts that the Italian steam-roller has successively crushed the armies of Ras Mulu Gheta, Ras Kassa, Ras Seyoum and Ras Imru, and nothing is left of these once proud fighting forces but remnants in flight to the south.

The only Ethiopian army still intact is that under Ras Nassibu, on the southern front, and it is expected that General Graziani will begin a drive against this force in the near future, with Harrar and Jijiga as his objectives.—Reuter Special.

"It is no longer a battle but a man-hunt," declared Marshal Badoglio, the Italian commander, in-chief in East Africa, when asked his impression of the three-fold Italian victory, which the Higher Command prefers to regard as one great battle, which lasted three weeks and eliminated 100,000 Ethiopians from the areas of warfare.

He added that Ras Kassa, one of the most able of the Ethlopian commanders, had not only been defeated but utterly smashed. It was the first time in Ethiopia's history that arms and ammunition had been discarded on a scale so enormous,-Reuter.

"The war is only just starting," declared Emperor Haile Sclassic, in the course of a message delivered to a monster meeting of Moslems on the occasion of a religious festival here.

Defence Cracks

---- Rome, Mar. 4.

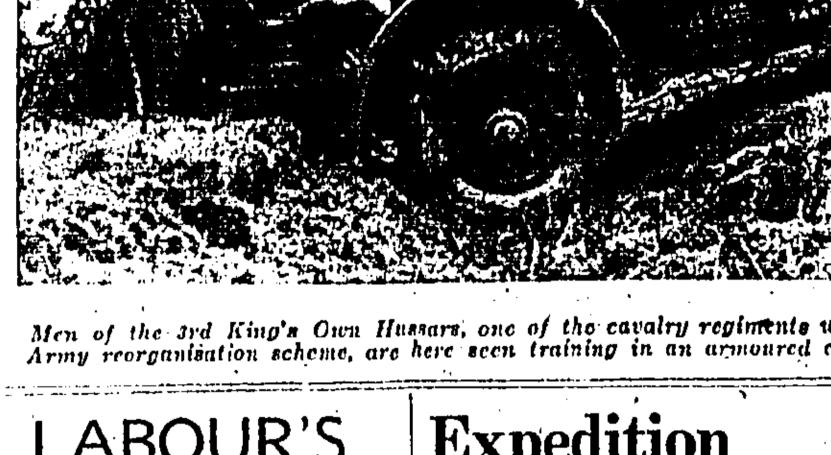

The battle against Ras Imru was one of the hardest-fought of the whole campaign in Ethiopia, says an official communique issued by the Italian Army in East Africa to-day.

Troops of the Second Army Corps were forced to advance across the plains of Schelnen and encountered the most stubborn resistance. The Ethiopina, employing the most modern methods of attacks, charged right up to the mobile batteries which fired into their ranks at point blank range, from only one hundred yards'

distance The Ethiopians resisted the Italian assault for three days and were constantly subjected to heavy artillery fire. Finally they broke and fled in panic, and their disorderly columns headed for Taloxzze Ford. But the Italians were there before them. (By Telegraph, Copyright, Telegraphis tessages Ordinance, 1894, Received, March London, March 4.

The attitude of the combined Trade Union and Labour Movement, with regard to the Government's new defence proposals is still indefinite. There was a series of meetings in a string practically throughout the lasting practically throughout the day, but no statement was issued.

One meeting, consisting of the chief-representatives of - the chief! labour bodies, will meet again tomorrow. It is understood that some difference of opinion with regard to the Government's proposals exists between the Labour Party and the Trades Union Congress.

While the political Labour move ment is more or less determined to oppose the rearmament proposals as exceeding requirements, the Trades Union Congress is mainly concerned with the realities of the situation, being interested in arranging trade union conditions and safeguards under the Government's programme.-Reuter Special.

STRIVE FOR PEACE

London, March 4.

Referring at a public meeting today the Government's new defence scheme, the Air Minister, Lord Swinton, declared that Britain's great interest, as always, is peace.

Foreign policy and defence policy, he said, must go together. Defence policy, like foreign policy, did not merely mean defence of vital interests, important as they were. It means something more than that, for it was insurance against war. They would only prevent war if the forces of peace were strong enough to make war not

"We must have the means as well as will," he said. "It will be costly, but the premium will be well worth pence." ITALY'S DEMANDS NOT LESS EXACTING

Addis Ababa, March 4.

The Emperor of Ethiopia will probably agree to peace negotiations on the basis of the formula contained in the Committee of Thirteen's appeal to combattants, it is learned semi-officially by Reuter.

It is pointed out, however, that it will be very difficult to order a truce, owing to the nature of the Ethiopian guerilla warfare, and it is not believed that Italy will definitely guarantee to withdraw her troops, in accordance with the rules of the League Covenant.— Reuter Bulletin Service.

ITALY CONSIDERS REPLY

Rome, March 4. Italy's reply to the Committee of Thirteen's peace appeal will be considered by the Council of Ministers on March 7.

The Press at present refrains from commenting, but unofficial circles are not enthusiastic and doubt whether Ethiopia is yet ready to accept Italy's minimum terms, which will certainly not be less than those suggested by M. Pierre Laval and Sir Samuel Hoare, and which caused such a storm of indignation in British and French circles.—Reuter Bulletin Service.

Wives Answer Wages Problem: "Most Men Do"

Should a husband tell? The question was raised in Clerkenwell County Court last month, when a wife, in the tone of one who states a commonplace, remarked to Mr. Registrar Friend:-

"Men do not tell their wives what they

She added that she had been married for twenty-nine years and still did not know how much her husband earned.

A London newspaper carried out a telephone inquiry of representative opinion in London. These are some of the answers the paper received:-

BUSINESS MAN'S WIFE:

"Of course I know what my husband earns. He would be the first to tell me of any increase

that he received. "If he lost money he might try to keep the news from me, but in these days of income tax returns it is difficult to keep secrets like that." DOCTOR'S WIFE:

"I should think it is a purely personal question between a man and the type of woman he, marries. I happen to know exactly how much my husband earns because I look after his books."

SOCIAL WORKER:

"It varies between classes, and even between districts. The wife of a professional man earning thousands might not be so inquisitive as the wife of a workman earning a pound or two a week. "The professional man, on the other hand, would not have the same temptation to conceal part of his earnings to provide himself with extra pocket money.

"On the whole, I should think that most husbands make no secret of their earnings from their wives. Mine does not."

Good Idea Goes Wrong

Signora Galluzzi, who lives in Rome, has one disturbing failing. She snores.

So her husband, who fancies himself as an inventor, invented an apparatus consisting of a tube inside which was a thin blade made of brass. The Idea was that a snore would cause the brass blade to make contact with an electric bell, which would ring and awaken the snorer.

Signor Galluzzi tried out his invention on Tuesday (says United Press). He heard his wife snoring, but the bell did not ring. He ran into her bedroom to see what had gone wrong. He found her choking. She was hurried to hospital.

There the doctors found that the brass blade had lodged in her throat.

Let me introduce the Greta Garbo of to-day—a Greta Garbo evolved during her holiday in her native Stockholm:-

RUXTON MURDER TRIAL COMMENCES

SENSATIONAL EVIDENCE IN POLICE COURT PROCEEDINGS

DISMEMBERED BODIES OF TWO WOMEN FOUND IN LANCASHIRE REAVINE: DOCTOR CHARGED

CREAT interest is being displayed at Home in the trial, which opened this week, of Dr. Buck Ruxton, who is charged with the murder of his wife, Isabella Ruxton.

The prosecution alleges that he dismembered her body at his house and that the human remains found in a ravine at Moffat were those of Mrs. Ruxton.

Contrary to expectation the only indictment to which Ruxton was called to plead at the Manchester Assizes, concerned his wife Isabella, no charge being preferred regarding his housemaid, Mary Rogerson whose dismembered remains were also alleged to have been discovered. The accused pleaded not guilty.

William Tummel, veteran assistant declares Tummel, "in all my 20 years in pictures, have I seen a youngster with as much promise as Eleanore Whitney. She can dance, certainly, but that's only a part of it. Eleanore, of Typhold and one case of Meningitis Hongkong, 19th February, 1936. first, of all, is a born actress. She were reported to the local Health has what we call camera intuition, an asset found in about one out of every HONG KONG HORTICULTURAL 5,000 girls we test. She is young and pretty, possesses a perfect camera face, and has the oagerness to improve which is a prime necessity in youngsters who would go places in pictures." Tummol believes also, that Howard in the leading roles, with Willie Howard as featured comedian. A radio amateur hour furnishes background for the story and Miss Whitney will be seen dancing as one of the competitors before the micro-

"I Live My Life"

Starring Joan Crawford and lirected by W. S. Van Dyke-this combination is enough to make any picture a success. In the case of "I Live My Life," the new Metro-Goldwyn-Mayer production at the Star Theatre, the combination coupled with a powerful story, is made an outstanding production. Different from any of the glamorous star's previous pictures, it casts her as a spoiled debutante whose love for a penniless archaeologist redeems her. As the archaeologist, Brian Aherne brings his finest performance to the screen, making the character a warm, charming and humorous digger of Joan Crawford has never appeared more glamorous nor been more beautifully photographed. Her delineation of the gay, careless, heart-free character is the work of a fine actress. Equally etimulating is the supporting cast. Frank Morgan is up to his old humorous tricks as the bumbling, soft-hearted father.
Aline McMahon brings dignity to her role of a woman sadly in love. Fred Keating is excellent as the handsome "clothes horse." Eric Blore and Arthur Treacher are two butlers you'll never forget. Nor will you forget Jessie Ralph as the irascible old grandmother. "Parsuit"

Drama moves on wheels in a lilting comedy romance with thills and gripping drama in "Pursuit", Metro-Goldwyn-Mayer's fast-moving story of adventure on the highways and byways coming to the Oriental Theatre on Friday and Saturday. It deals with the adventures of a young couple trying to smuggle a child, object of a guardianship suit, out of the state. Pursued by private detectives, crooks and all kinds of enemies, they hide out in auto camps and farms

and in a clever denoncement win the

Mexican border. Chester Morris and

Sally Eilers, plays the fugitive cou-ple, with Scotty Beckette, C. Henry

Gordon, Henry Travers, Dorothy Potorson, and Haroki and others are in the cast. Dramatic highlights include the plane accident; hiding of the fugitive car in a truckload of hay; the ruse by which the couple, handcusted, together, escape in the auto camp; the pursuit of the crooks who selze the child; hair's breadth adventures at the Mexican border;

Joe E. Brown's Intest Warner Bros. picture, "Alibi Ike," coming shortly to the Queen's Theatre is heralded as the most hilarious film in which the famous star has yet appeared. The story was written by the late Ring Lardner, who probably knew baseball players better than any other author. It's a pennant winning comedy of baseball and blondes. "Alibi Ike" is a big league ball-player, a crack pitcher and batter whose average, contrary to most twirlers, runs around the 400 mark. He never makes a play on the field or off it without perately in love with the sister of cuses for giving her an engagement

SISTER SHIP FOR THE EMP. OF BRITAIN?

CANADIAN PACIFIC PLANS

THERE is every prospect that one of the new Canadian Pacific liners to be constructed for the Pacific service from Vancouver to Hongkong and Manila will be a sister - ship to the giant Empress of Britain, due here on March 20 on her fifth annual round the world cruise.

According to a reliable London source, Canadian Pacific Steamships Ltd. will place an order on the Clyde within the next few months for a 42,500 ton luxury liner—identical in every detail with the Empress of Britain.

The order will probably go to John Brown and Co. Ltd. It will mean three years work for at least five thousand men who would otherwise be unemployed following the completion of the Queen Mary.

Canadian Pacific Ltd. are considering the construction of two other liners, it is revealed.

Although no definite pronouncement has been made by the Company, it is understood that the Empress of Asia and Empress of Russia, the two oldest Canadian Pacific vessels on the Far Eastern service, will be withdrawn when the new vessels are completed.

Due to unsettled conditions in the Mediterranean, the annual itinerary of the Empress of Britain was altered this year. She omitted all Mediterranean ports, travelling from the Atlantic to the Indian and Pacific Oceans by way of the Cape. From Hongkong she will proceed on March 25 to Shanghai, Chinwangtag, Beppu, Kobe, Yokohama, Honolulu, Hilo, San Francisco, Los Angeles, Balboa, Christobal and Havana back to New York, arriving there on May 18.

Wife To Speak For Veniselos

RICHEST WOMAN IN GREECE

Athens, Feb. 20. WOMAN of 62 who in the past has played one of the most influential parts behind the scenes in Greek politics may soon emerge into the full political limelight for the first time.

She is Mmc. Helena Venisclos, the British-born, wife of the 71-years-old Greek statesman, and I was told to-day by a woman friend that she is expected to return this month to. Athens.

Since Greece has no women M.P.s. Mme. Veniselos will probably figure here as the mouthpiece of her husband, who, it is generally believed, intends to take advantage of the roya' amnesty and spend his declining years on his Crete estate.

It is said that M. Veniselos proposes to avoid Athens and take no active part in politics, though remaining as a guiding influence of the graty he created.

TO SEEK ASSURANCE

Mme. Veniselos, who is intensely devoted to the veteran statesman, is determined not to permit him to return until she is assured of his safety, and she will, undoubtedly, seek such an assurance when she arrives in

Athens. Probably the richest Greek woman, she inherited a third of the fortune which her Other, Mr. John Schilizzi made in London, and she was married to M. Veniselos in London in 1921 when he was a penniless political refugee.

The Simplon Orient express on which Prince Paul, brother of the King of the Hellenes, arrived from Paris and London, was met at Athens station this morning by the King himself.

Scottish Dictionary On The Way

Edinburgh, Feb. 20. An appeal to Scotsmen and Scottish societies all over the world to support a great national undertaking—a Scottish dictionary-was made here by Dr. William Grant, a professor of modern languages, at the sixth annual meeting of the Scottish National Dictionary Association.

Dr. Grant said that at the end - of the last century when the great English Dialect Dictionary was in difficulties, Dr. Wright, its editor, rectived a grant on aid from the Royal Bounty Fund.

This fund for the English dictionary is not, he said, available for the Scots Dictionary, nor is there may parliamentary source from which a Scottish National Dictionary could be subsidized.

The Federal Parliament of Australia at Caribiara has subscribed for the dictionary without solicitation and the Parliament of Voutern Australia also. Dr. Grant declared that the four parts of Volume I, published in 1984, had met with success and Volume II only 12 feet thickness, Dr. Kuiper was in course of completion.

Five Men Turn Up For Game

Only five members of the Victoria Recreation Club team turned up at the Chinese Recreation Club last night for the men's doubles league bodminton match, but the full number of games were played as a result of Silva, Rumjahn and Percira playing in turn with Fisher.

C.R.C. won all nine games without any difficulty and become joint leaders of the division with Ellot Hall "A", both with 24 points to their credit.

St. Andrew's "B" could not raise a toam to meet Fire Brigade and therefore conceded the points, as they did Tre to Ellot Hall "B" on Monday evening.

Dotalls of the C.R.C. match follow. S. P. Chan and C. Y. Yung (C.R.C.) beat P. C. Pereira and E. Alves 21-6; boat C. N. Silva and S. A. Rumjahn 21-0; boat Fisher and Pereira 21-15. W. C. Choy and H. MAKSUI-HON SECURES A PLACE

ATTACK

(By. "Veritas")

MAK Sui-hon is the only non-South China Athletic Association player appearing in the Chinese team to meet the Navy for the Lai Wah Cup on Sunday according to the selections made known to me to-day. And he is playing out of position, namely left back instead of right back.

Except for him the Chinese eleven will be composed of South China "A" league team players, with the half back line and attack in toto.

It is a fine team and one hesitates to contemplate their defeat by the Navy, even though recognising that the nauticals, if true to form, can play football second to none in the Colony.

The Chinese big pull is that Lee Waitong is leading the forwards. It is quite possible this means the difference between victory and defeat.

While it is true Mak Sui-hon (of) valuable point in their campaign for the Athletic) is out of his proper position at left back, experience has to a draw of one each at White Hart shown that he is a very adaptable Lane, player and the Chinese defence is not likely to suffer because the selectors have seen fit to move him. He kicks diesborough on the latter's ground, equally well with both feet, and the and Barnsley rattled on five goals only phase of the game in which he is at all likely to be a bit flummoxed is in positioning.

But he has in front of him the best left half in the Colony who is capable, not only of shouldering chief responsibility, but of providing an adequate cover should Mak be lured into positional errors.

COULD HAVE BEEN CHOSEN

Knowing the South China players as we do it is difficult to see how the team could be improved. Lai Kwok-chiu of the Athletic has

been chosen as reserve half back together with Lam Tak-po of South China: "B," while Lau Mau, South China "A" left back also figures in he reserve list.--

But judged purely as a team it can be said that the Chinese will take the field on Sunday without a single weak spot. Li Tin-sang, at present playing pen. Ernest Strange is going better than ever before, a half back line of proven qualities, and a lively attack led by the inimitable Lee Waitong, is sufficient proof that the Navy | right to right half, T. STRANGE AND DROWN TO PLAY HALF BACK

CLUB'S IMPORTANT CHANCES AGAINST S. CHINA "A"

(By "Veritas")

'Tis curious! But though. the Club have had their hands forced and have made some "apparently" startling positional changes in their line-up to oppose South China "A" in the league on Saturday, I believe this match will prove that they have discovered the very combination for which they have been the searching throughout the season.

This is what is going to hapfrom inside left to left half, inside right for the Club first eleven Drown is moving from inside and is appearing at inside right, and Wilson, who didn't do at all badly last week among the "nobility" is being retained at inside left.

Maybe it is hard to imagine Ernie Strange as a wing half, yet I think he will prove a decided asset. He is very fast, has lots of stamina and is no fool when it comes to ball distribution. The more I think about it Navy a muscle-opener for their Sun-

THANKS TO POLICE **ACHIEVEMENT**

The defeat last Sunday of the Kowloon Indian Tennis Club by the Police has created an entirely new interest in this season's Mamak hockey tournament. It revealed that the reigning champions are vulnerable, and that given purposeful opposition they can be beaten. Although I hinted in my notes last

week that the Kowloon Indians would probably suffer defeat before the end of the season, I was frankly taken by surprise when the Police accomplished the feat. But it was a thoroughly deserved success, even though, after scoring the all-vital goal twelve minutes from the initial bully-off, the winners were generally on the defen-

BIG FACTOR WAS STAMINA

IN SOUTHORN CUP **ENCOUNTER**

Although it was a mistake on the part of Miss McCaw which led directly to extra time being required in the Southorn Cup match between Hongkong Ladies and the Y.M.C.A., the defeat of the "Y" was in the main due to their lack of stamina.

Miss McCaw's mishit which allowed Miss Hance to jump in and score time was a real tragedy for the Y.M.C.A. but there was nothing to suggest then that they would collapse

Two Division Leaderships Change Hands

LEAGUE FOOTBALL YESTERDAY

Two divisional leaderships changed hands yesterday in the Hongkong Football League as a result of matches played in the second and third divisions. Navy, by means of a handsome success against Royal Engineers, assume premiership of the second division, while East Lancs, thanks to a comfortable win against the R.A.M.C. are now top of the third division. Goals in the Navy-Royal Engineers match were two for a penny, no less than six being registered in the first ten minutes. Neither defence inspir-

ed any great confidence, although Navy tock the precaution of shadowing Howlett and thus throttled the Sappers' chief goal-scoring medium. Hills and Hopkins showed better knowledge of the technique of defensive play than did Slack and Colman their opposite numbers, but both sets of backs were inclined to be slow and

rather easily outwitted. Navy did not have such an easy time as suggested by the score of 8-4, but their forwards were certainly on the mark, and managed to catch the Engineers' rearguard during re-

actionary periods. Wride was the mainstay of a forceful attack and Tudor played a ground yesterday, when some fast and clover game at contro-half. Small Town Girl

THE STORY THUS FAR Kay Brannan, petite and beautiful, after waiting four long years for her sister Emily to graduate, finally enters Wellesley. But in her sophomore year she is forced to leave because of financial reverses at home. Taking a job as Chick Rantoul's advertising assistant she becomes part of a mad social whirl. To her roommate, Genevieve Fay, she confides that she will never return to the dull, uneventful town of Carvel. Genevieve wondera if the la in love with Chick. Kay hears much of reckless Bob Dakin, medical doctor, whom she has never encountered. At a party one night she meets Dane Ripley with whom Emily has been in love. To avenge her sister's disappointment Kay decides to win him and throw him over.

Magistrates At 2.30, 5.10, 7.15, & 9.30 p.m. Divorce Cases

RECORD TO BE SENT TO HIGH COURT

CLAUD MULLINS' PROPOSAL

Mr. Claud Mullins, the Magistrate at the London Scuth-Western Police Court, who instituted special matrimonial hearings, put forward some novel proposals for the improvement of the procedure in such cases generally, when he addressed the Conference on Mental Health in the Central Hall, Westminster.

Parliament, he said, had no right to be proud of the way it had handled problems of marriage. Parliament always acted on the assumption that methods of hearing that were suitable for criminal charges or traffic offences were suitable also for matrimonial cases. This was a serious fallacy.

The compelling of parties to stand up near the dock or in the witnessbox throughout the proceedings, the marching of them in and out of the witness-box, the presence of dozens of idle sightseers and neighbours, the long waits while traffic and other cases are dealt with, and so on, produced an atmosphere in which courts were unlikely to get at the real truth.
"In my opinion," said Mr. Mullins,
"plenty of women have got away with well-rehearsed and exaggerated tales, simply because the methods of hearing their cases are such that their husbands have not adequately defended themselves. There are usually faults on both sides, and much conxing and sympathy are necessary before the court can get at the husband's explanations.

HUMANE PROCEDURE

"When at long last we get humane and intelligent procedure for matrimonial cases in magistrates' courts, an irresistible case can be made out for both an extension of our financial limits and for the inclusion to some extent of divorce

"And why should not divorce cases come to us, as no less an authority than Lord Hewart has recently said? We already deal with the issue of adultery when husbands seek to revoke their orders on account of adultery by the wife.

have had cases of this sort which in every respect resemble divorce cases in the High Court. "Personally, I believe that this new Parliament will at long last carry out the majority recommendations of the Divorce Commission of 1912, so that adultory will no longer be the sole ground for divorce. But this reform will be much easier, and will be more alongside it comes the transfer of "poor persons" divorces to magistrates' courts so that applicants for divorce can benefit from our social difference between these audiences

divorces could be prevented if magis- of London. the way that separation cases are handled at the South Western Court. "I do not recommend that magis-trates' courts should grant decrees of divorce, at least not yet, but I do recommend that the cases of "poor persons" should begin with us, that we should hear and record the evidence, make provisional orders, and then send all the written record to the High Court, where in the ordinary case a decree of divorce would be pronounced without any oral hearing."

PEMARKABLE progress has been made recently in French military aircraft, and several new types have been built and flown which represent in certain respects an advance upon the comparable types in other, air forces.

Most striking are the new French single-seater fighters, of which there are several types with top speeds of over 800 m.p.h. Design figures, drawings and photographs of some of these machines are given in the current issue of L'Aeronautique, one of the best-informed of the French technical papers.

The Loire 250, the Nieuport 160 and the Dewoitine 513 are all capable of a speed of more than 300 m.p.h. They all have retractable undercarriages, variable pitch airscrews and enclosed pilots' cockpits High lift devices, for enabling the landing speed to be kept down, are also used in all three types. In one machine the engine is air-cooled and in the other two it is water-

Another unusual type developed under the new French technical programme is a single-seater flying-boat. This machine carries a group of guns firing forward in

Large bombers and multi-seater combat machines have also been extensively developed, and it is evident from the lines followed by their design that the tactical ideas of the French Air staff differ markedly from those of the British. There is a growing insistence in France upon the importance of armament, and the motor-cannon "My wife and I regularly attend is making an increasingly important place for itself in the French

"NO LONGER A BATTLE"

Asmara, March 4. "It is no longer a battle but a man-hunt," declared Marshal Badoglio, the Italian commander-in-chief in East Africa, when asked his impression of the three-fold Italian victory, which the Higher-Command-prefers to regard as one great battle, which lasted three weeks and eliminated 100,000 Ethiopians from the areas of warfare.

He added that Ras Kassa, one of the most able of the Ethlopian commanders, had not only been defeated but utterly smashed. It was the first time in Ethlopia's history that arms and ammunition had been discarded on a scale so enormous.-Reuter.

World History Pushed Back To 1500 B.C. By Chinese Find

Shanghai, Feb. 20. Authentic written history in China has been pushed back to at least 1,500 years before Christ by archaeological excavations at An Yang, Honan province, Dr. Y. Y. Tsu of St. John's University declared in the course of a lecture here.

Wives Answer Wages Problem: "Most Men Do" Should a husband tell? The question

She added that she had been married for twenty-nine years and still did not know how much her husband carned.

A London newspaper carried out a telephone inquiry of representative opinion in London. These are some of the answers the paper **BUSINESS MAN'S WIFE:**

"Of course I know what my husband earns. He would be the first to tell me of any increase that he received.

"If he lost money he might try to keep the news from me, but in these days of income tax returns it is difficult to keep secrets like that." DOCTOR'S WIFE :

"I should think it is a purely personal question between a man and the type of woman he marries. I happen to know exactly how much my husband earns because I look after his books."

SOCIAL WORKER:

"It varies between classes, and even between districts. The wife of a professional man earning thousands might not be so inquisitive as the wife of a workman carning a pound or two a week.

"The professional man, on the other hand, would not have the same temptation to conceal part of his earnings to provide himself with extra pocket money.

"On the whole, I should think that most husbands make no secret of their earnings from their wives. Mine does not." **CLERK'S WIFE:**

"I should hate to know exactly how much my husband was earning. I never ask him. work, too, and I do not tell him

how much I earn." Husbands hold a different view. Those whom the Daily Express asked had only one answer. "No," they said, "we do not tell our wives. They know."

Ten of twelve wives who answered the question knew exactly what their husbands

GRETA GARBO HAS CHANGED: HAIR IS HEPBURN STYLE

Signora Galluzzi, who lives in Rome, has one disturbing failing. She snores.

So her husband, who fancies himself as an inventor, invented an apparatus consisting of a tube inside which was a thin blade made of brass. The idea was that a snore would cause the brass blade to make contact with an electric bell, which would ring and awaken the snorer.

Signor Galluzzi tried out his invention on Tuesday (says United Press). He heard his wife snoring, but the bell did not ring. He ran into her bedroom to see what had gone wrong. He found her choking.

She was hurried to hospital. There the doctors found that the brass blade had lodged in her throat.

Let me introduce the Greta! Garbo of to-day—a Greta Garbo evolved during her holiday in her native Stockholm:-

RUXTON MURDER TRIAL COMMENCES

SENSATIONAL EVIDENCE IN POLICE COURT PROCEEDINGS

DISMEMBERED BODIES OF TWO WOMEN FOUND IN LANCASHIRE RAVINE: DOCTOR CHARGED

CREAT interest is being displayed at Home in the trial, which opened this week, of Dr. Buck Ruxton, who is charged with the murder of his wife, Isabella Ruxton.

The prosecution alleges that he dismembered her body at his house and that the human remains found in a ravine at Mossat were those of Mrs. Ruxton.

Contrary to expectation the only indictment to which Ruxton was called to plead at the Manchester Assizes, concerned his wife Isabella, no charge being preferred regarding his housemaid, Mary Rogerson whose dismembered remains were also alleged to have been discovered.

The accused pleaded not guilty.

Blackburn and met Mrs. Ruxton loyal to his wife and would not give Edinburgh'." there three times.

"I was a friend of hers;" added Mr. Edmondson: "there was certainly nothing - more than friendship."

Mr. Edmondson was then cross-examined by Mr. Slinger, who asked him what make of car he drove, and he replied that it was a 1930 Austin Seven. On September 7, after going to the awimming bath until 6.55 p.m., he took Mrs. Ruxton and Mrs. Anderson to Dalton-square. He got home about 7.15, and did not recollect going out in the evening.

Mr. Edmondson was also crossexamined in detail about his movements on other days. On September 10, he said, he went to the swint. Stainton," he said. "I said to him, All I am concerned about is that town.

Detective-Sergeant Goodwin stated that on the afternoon of Monday last a soldier hired a bleycle from the complainant's shop and failed to re-turn it. The name given to the shop was a fals- one. On the morning of March 8, the bicycle was seen by a Portuguese man in an empty house at No. 31 Chung Hing Street, ground floor. He reported the matter to the complainant and eventually the police

were informed: The police went to the premises and found the wheels, frame and the saddle of the machine. A detective was left to see if anybody would call at the house, and later first and second defendants were seen with the handlebars of a bicycle in front of the shop where they worked as apprentices, about two or three houses away. They were questioned and admitted having taken various parts from the machine, which they

produced. The prosecution further stated that quito frequently machines are hired from shops at ten or twenty cents and not returned. The machines were sometimes left stranded and other people came along and took them.

Appearing on remand before Mr. W Schofield, at the Central Magistracy this morning, a woman, Li Chu, aged 80 years, was sentenced to six months' hard labour on a charge of stealing a diamond ring, valued at \$300, the property of Wong Po-chun, married woman, from No. 278 Lockhart Road. second floor, on February 25. CONSIDERABLE DOUBT

Mr. Russ further stated that His Worship had apparently felt some considerable doubt about the case. and, further, defendant was not represented. If he had been represented, the case would have been gone into more thoroughly. Defendant had not been able to bring his evidence, because one of the passengers, a man named Loung Ying, a merchant of Canton, had loft for Canton. His evidence might have been of material assistance. Further, the evidence as to the drinks defendant had taken appeared to have been very unsatisfactory. The medical officer's evidence was based on the assumption that defendant had taken drink before the accident, and therefore from his state at the time of admission to hospital he must have been unfit to drive at some period. With regard to the evidence of the police, Mr. Russ submitted that, with the greatest respect to the police. they were not fully qualified medical men, and everybody know that in certain cases where a person is violently shocked he could be incoherent, quite independent of whether any alcohol had been taken. And if the person's breath smelt of alcohol, then anybody might come to the conclusion that that person was suffering from an excessive amount of alcohol.

Mr. Schofield remarked that defendant's witness had lied and his mind had been prejudiced against that witness, so there was no use in calling him, but if there was additional evidence forthcoming he would rehear the case in part.

The application was accordinly adduced until 11.30 a.m. on March 19.

The annual general meeting of the ment are cordially invited to attend

INDIAN COLLIERY FIRE

4 BRITISH VICTIMS

Calcutta, Feb. 28.

THIRTY-SEVEN__ people have been killed in a mine disaster at Loyabad colliery, Jharia, Bihar Province. They include four Britons and one Italian.

The British victims are stated

THERE is every prospect that one of the new Canadian Pacific liners to be constructed for the Pacific service from Vancouver to Hongkong and Manila will be a sister ship to the giant Empress of Britain, due here on March 20 on her fifth annual round the world cruise.

According to a reliable London source, Canadian Pacific Steamships Ltd. will place an order on the Clyde within the next few months for a 42,500 ton luxury liner—identical in every detail with the Empress of Britain.

The order will probably go to John Brown and Co. Ltd. will mean three years work for at least five thousand men who would otherwise be unemployed following the completion of the Queen Mary.

Canadian Pacific Ltd. are considering the construction of two

other liners, it is revealed. Although no definite pronouncement has been made by the

Company, it is understood that the Empress of Asia and Empress of Russia, the two oldest Canadian Pacific vessels on the Far Eastern service, will be withdrawn when the new vessels are completed.

Due to unsettled conditions in the Mediterranean, the annual itinerary of the Empress of Britain was altered this year. She omitted all Mediterranean ports, travelling from the Atlantic to the Indian and Pacific Oceans by way of the Cape. From Hongkong she will proceed on March 25 to Shanghai, Chinwangtao, Beppu, Kobe, Yokohama, Honolulu, Hilo, San Francisco, Los Angeles, Balbon, Christobal and Havana back to New York, arriving there on May 18.

The document said that one or two American flying officers had been sho down. A warning was also found referring to Goertz as a "particularly dangerous intelligence officer," and exactly describing him.

Mr. Justice Greaves pointed out that the publications said to have been found in Goertz' possession could be purchased by the public. Goertz pleaded not guilty .- Reuter.

RICHEST WOMAN IN GREECE

Athens, Feb. 20. WOMAN of 62 who in the past has played one of the most influential parts behind the scenes in Greek politics may soon emerge into the full political limelight for the first time.

She is Mme. Helena Veniselos, the British-horn wife of the 71-years-old Greek statesman, and I was told to-day by a woman friend that she is expected to return this month to Athens.

Since Greece has no women M.P.s, Mme, Veniselos will probably figure here as the mouthpiece of her husband, who, it is generally believed, intends to take advantage of the royal amnesty and spend his declining years on his Crete estate.

It is said that M. Veniselos proposes to avoid Athens and take no active part in politics, though remaining as a guiding influence of the party he created. TO SEEK ASSURANCE

Mme. Venisclos, who is intensely devoted to the veteran statesman, is determined not to permit him to return until she is assured of his safety, and she will, undoubtedly, seek such an assurance when she arrives in Athens.

Probably the richest Greek woman, she inherited a third of ... the fortune which her fither, Mr. John Schilizzi made: in London, and she was married to M. Veniselos in London in 1921 when he

MAK SUI-HON SECURES A PLACE

LEE WILL LEAD ATTACK

(By "Veritas")

MAK Sui-hon is the only non-South China Athletic Association player appearing in the Chinese team to meet the Navy for the Lai Wah Cup on Sunday according to the selections made known to me to-day. And he is playing out of position, namely left back instead of right back.

Except for him the Chinese eleven will be composed of South China "A" league team players, with the half back line and attack in toto.

It is a fine team and one hesitates to contemplate their defeat by the Navy, even though recognising that the nauticals, if true to form, can play football second to none in the Colony.

The Chinese big pull is that Lee Waitong is leading the forwards. It is quite possible this means the difference between victory and defeat.

While it is true Mak Sui-hon (of) ---to a draw of one each at White Hart shown that he is a very adaptable player and the Chinese defence is not likely to suffer because the selectors Chelsen were badly defeated by Mid- have seen fit to move him. He kicks is in positioning.

Lai Kwok-chiu of the Athletic has been chosen as reserve half back together with Lam Tak-no of South China "B," while Lau Mau, South China-"A"-left-back-also-figures-in he reserve list. But judged purely as a team it can

be said that the Chinese will take the field on Sunday without a single weak spot. Li Tin-sang, at present playing pen. Ernest Strange is going better than ever before, a half back from inside left to left half line of proven qualities, and a lively attack led by the inimitable Lee Waitong, is sufficient proof that the Navy will have to play extremely well, or their opponents immensely below form, if the Chinese are to lose.

New Interest In Mamak League

THANKS TO POLICE **ACHIEVEMENT**

The defeat last Sunday of the Kowloon Indian Tennis Club by the Police has created an entirely new interest in this season's Mamak hockey tournament. It revealed that the reigning champions are vulnerable, and that given purposeful opposition they can be beaten. Although I hinted in my notes last week that the Kowloon Indians would probably suffer defeat before the one of the senson, I was frankly taken by surprise when the Police accomplish-

ed the fent. But it was a thoroughly deserved success, even though, after scoring the all-vital goal twelve minutes from the initial bully-off, the winners were generally on the defen-This permitted the Police rearguard to show how well they could rise to an occasion, and credit cannot be time was a real tragedy for the

Ten new Interport "caps" will be seen in action against Macao on Saturday. They are:—A. B. Owens (Navy), A. E. P. Guest (Radio), Kishen Singh (Army), J. E. Potter (Club), Lieut. Davies (Navy), Lleut. J. P. Williams (Army). Lieut. E. M. Dawson (Army), Lieut. Burch (Navy), Pte. Nolan (Army), and Lieut. Wraith (Navy). Other members chosen by the selec-

tion committee who have played before for the Colony are W. A. Reed (Club), Alaf Din (Army), G. E. R. Divett (Club), Gurbachan Singh (Radio), and Lal Singh (Army). Nobody will dony that the Colony will be well represented by these players, and with such a well balanced defence and attack I expect to see

Hongkong win.
On Sunday Macao will play their second match, this time against the Civilians, and although the homesters are strong, I imagine Macao will win.

The Irish trial team for the International Hockey Tournament has been relected and is as follows:-Sig. Dove; L/Cpl. Wheelan (R.A.) and Cpl. Kennedy (E. Lancs.); Cpl.

Two Division Leaderships Change Hands

LEAGUE FOOTBALL YESTERDAY

Two divisional leaderships changed hands yesterday in the Hongkong Football League as a result of matches played in the second and third divisions. Navy, by means of a handsome success against Royal Engineers, assume premiership of the second division, while East Lancs, thanks to a comfortable win against the R.A.M.C. are now top of the third division.

Goals in the Navy-Royal Engineers match were two for a penny, no less than six being registered in the first ton minutes. Noither defence inspired any great confidence, although Navy tock the precaution of shadowing Howlett and thus throttled the Sappers' chief goal-scoting meatum. Hills and Hopkins showed better knowledge of the technique of defen-

their opposite numbers, but both sets of backs were inclined to be slow and rather easily outwitted. Navy did not have such an easy time as suggested by the score of 8-4, but their forwards were certainly on the mark, and managed to catch

East Lancs. Make **Good Recovery**

East Lancashires made a good re-covery in their third division match against R.A.M.C. yesterday and after being a goal in arrears, succeeded in

winning by three goals to one. It was a well contested game though rather shorn of the finer points largely owing to the slippery ground sur-immediately equalized and extra time face which upset several of the play-was played. East Lancashires were better balanced and stood the pace longer. Thore was no real weakness in the team, whereas the Medicals suffered from weakness on the wings. Howells in the losers' defence was one of the best players on view, while Flint was the one man in the Medicals attack to cause the East Lancashires any

anxiety. Stanton gave the Medicals the lead in the first half, but it was nullified by Bowker scoring an equaliser just before the interval. After the rest, the East Lancashires quickly went ahead through Grossley, and they put the issue beyond doubt ten minutes from the end when Crook converted

THE STORY THUS FAR Kay Brannan, petite and beautiful, after waiting four long years for her sister Emily to graduate, finally enters Welles-ley. But in her sophomore year she is forced to leave because of financial reverses at home. Taking a job as Chick Rantoul's advertising assistant she becomes part of a mad social whirl. To her roommate, Genevieve Fay, she confides that she will never roturn to the dull, uneventful town of Carvel. Genevieve wondera if she is in love with Chick. Kay hears much of reckless Bob Dakin, medical doctor, whom she has never encountered. At a party one night she meets Dane Ripley with whom Emily has been in love. To avenge her sister's disappointment Kay decides to win him and throw him over,

GODOWN COMPANY MEETING

HEAVY COST OF DREDGING

GOOD WHARF **EARNINGS**

A considerable decrease in earnings and an unexpectedly heavy expense for dredging were features of the Hon. Mr. J. J. Paterson's speech at the forty-ninth ordinary annual meeting of the Hongkong & Kowloon Wharf and Godown Co., Ltd., held to-day. The Chairman remarked on the drop in storage and lighterwork recoipts, but said that receipts at the wharves were \$57,000 better than in

W. Sewell, J. M. Alves, A. Murdoch, and A. N. Mackenzie.

The secretary, Mr. F. H. Crapnell, read the notice convening the meeting. CHAIRMAN'S SPEECH

The Chairman said.—Gentlemen. The report and accounts having been in your hands for some time, I will, with your permission, follow the usual procedure and take them as read. The past year's workings dis-close a considerable decrease in earnings. There was a drop of \$168,000 in receipts for storage and \$68,000 in lighterwork. In wharf work, however, the receipts were \$57,000 better than in 1934. Work at the wharves was very satisfactory, for 925 ships were berthed and 618,730 tons of chrgo landed, this being 100 vessels more to go alongside and an increase of 80,200 tons of cargo landed compared with 1934. These figures illustrate that it is undoubtedly more satisfactory for a vessel to go alongside a wharf to discharge than it is to deliver enrgo overside when moored at a buoy.

Approximately 80 per cent. of the goods landed was for transhipment. anl only a small quantity of the local cargo was left on storage.

REVENUE FOLLOWS EXCHANGE Revenue from storage commenced to drop in 1930 in sympathy wih the fall in exchange. In previous years our godowns were well filled, when merchants kept stocks ahead of immediate requirements. Over the past six years stocks of merchandise have gradually depleted and now coincide with present trading conditions in the Colony.

Work on the lengthening and widening of No. 1 Wharf was complet-750 feet in length and 81 feet wide. There is a shelter in the centre which proves very convenient to friends of passengers waiting on the wharf dur-

ing the hot and rainy season. At our last meeting I mentioned that dredging was in progress in the vicinity of the wharves. This was completed during the year and we were called upon by Government for \$201,571.00 as the Company's contribution, which was considerably more than anticipated. Extensive dredging to a depth of 34 feet was carried out in the harbour, and your Directors had to agree to bear the cost of dredging to a similar depth between the wharves and over an area 100 feet off the sea ends. It subsequently transpired that the Government scheme did not, as we thought include dredging that section of the harbour which would be necessary to permit deep-draught shins to approach our longest wharf.

Strong representations were made to the Government on what appeared to your Board to be reasonable grounds. They maintained that the dredging of an area, which was necessary in the general interest to enable the port to accommodate modern vessels, should not fall upon the Wharf Company, I regret to say, however, that our protests were unavailing and in the end we had no option but to submit to this additional

There does not appear to be anything else that requires special mention, and I now beg to propose that the accounts be adopted as presented. Mr. Dodwell seconded the motion which was adopted,

CASEMENT'S GRAVE

WON'T BE REMOVED TO IRELAND

-----Dublin, Mar. 4. Mr. Eamon de Valera, Chief Executive of the Irish Free State, to-day told the Dail that the British Government had refused the request for the body of Sir Roger Casement, on the ground that it is not customary to interfere with graves.-Reuter

Special. Sir Roger Casement, who was formerly a British consular official, came into prominence during the Great War by visiting Germany and urging Irish prisoners to serve against Britain. He was captured off the coast of Kerry in 1916, tried for high treason, and executed.
